

You Should Take Care Of Your Own Stuff!

Many children are not taking proper care of their own stuff and leaving it to the teachers and many other people to pick it up. Myself and many Teachers around the school believe you should start taking better care of your own property. In consequence you have to write an essay about taking care of your own property at our school.(Mount Hawthorn Primary)

My First reason is that it is building up in our landfill. It is building up by the minute, hour and day. 84% of our landfill is clothing! That is not just it, we also have those little plastic containers that we use for our recess and lunch. Soon enough there is going to be no more space for them and plastic does NOT break down!

Secondly, the price of all of your stuff. Your parents are probably sick of using their hard earned money on your stuff. The manufacturing companies are flooding with

money, (To be honest they would be pretty happy about that) you could be spending that money on other things more important than that or you could just save it. For about 10 jumpers it costs about \$500 to manufacture.

Finally, the mess you're making around the school. You are making it terribly frustrating for teachers and many other people such as myself having to deal with this mess! It would be very hard to clean in my perspective and having to just pick clothes and containers every 5 seconds. Although we have a lost property box it is still YOUR responsibility not anyone else's. You would probably not want your principal telling you just bad news and getting in trouble.

In conclusion, I believe that you should take better care of your property. I hope you have been persuaded to take care of your property. Don't just sit there wondering, go find it and take better care of it all!
